OPTION 1 — TALKING VIDEO (20–40S)

STYLE

- Natural, conversational delivery.
- Film in soft natural light whenever possible.
- Speak as though you're recommending the product to a friend rather than reviewing it.
- No need to memorize a script — feel free to use your own words.

SUGGESTED TALKING POINTS (CHOOSE 2–4)

- What made you want to try this scrub?
- What surprised you most after using it?
- Describe the texture and how it feels during application.
- What does the scent remind you of?
- How does it fit into your shower or evening routine?
- What makes it feel more elevated than other scrubs you've used?
- How does your skin feel afterward?
- Who would you recommend it to, and would you purchase it again?

CREATIVE NOTES

- Keep the tone relaxed and authentic.
- Focus on your personal experience rather than listing product features.
- Videos should feel organic — not like an advertisement.

OPTION 2 — B-ROLL VIDEO (20–40S)

Style: Slow, intentional lifestyle footage with natural movement.

BRAND FEEL

Think understated, calm, and elevated. We're drawn to content that feels effortless and refined — warm natural light, clean spaces, thoughtful details, and a slower pace.

Rather than feeling polished or overly produced, we want the product to feel naturally integrated into your everyday routine. This leaves room for your own style — which usually results in more authentic, better-performing content.
